

Scatolificio Niccoli, a company active in the sector since 1956, is the solution for those looking for an experienced box manufacturing company, with a completely "in-house" production cycle. A complete service for customers, from the design to the development of cardboard boxes, up to packaging solutions for all sectors.

The Management is convinced that the success of its company is linked to the achievement of primary objectives such as increasing customer satisfaction both in terms of products and related services and for the improvement of business processes.

In order to provide Quality and Food Safety guarantees to customers, the Management of Scatolificio Niccoli has recognized the opportunity to establish, document and maintain over time an Integrated Management System for Quality and Food Safety in compliance with the UNI EN ISO 9001:2015 and FSSC 22000:2018 standards that comply with current legislation and regulations and GMP standards. Certification by a third-party body accredited for this purpose is an essential element in order to be able to present the integrated management system to third parties in a credible and transparent manner. The Management of Scatolificio Niccoli has defined the strategic guidelines for Quality and Food Safety.

To achieve these objectives, the Management is committed to promoting, developing and supporting:

- the continuous technological innovation of production plants and manufacturing processes in order to increase its production capacity, improve the quality of the work carried out and related process optimization;
- the training of all personnel aimed at increasing their skills for the improvement of qualitative and environmental performance;
- the diversification of products to meet the needs of its customers;
- the involvement of all employees through their active participation in company processes;
- the continuous improvement of communication and information channels with its customers;
- working closely with its suppliers to ensure the conformity of the supplies and services offered;
- the continuous research during the development phase of new products of raw materials that have a lower environmental impact and that can fully meet the requirements of customers and the market;
- ensure that its activities are carried out in strict compliance with all current regulations in the fields of environment, ethics, health and safety in the workplace;
- ensure continuous monitoring of business processes, also on the basis of a careful assessment of risks and opportunities by the Company Management.
- improve the Company's image on the market through the acquisition of new orders;
- maintain a quality and food safety management system in compliance with standards and GMP (Good Manufacturing Practices), based on customer satisfaction, control and improvement of products and business processes, as well as compliance with regulatory requirements;
- Satisfy its customers in terms of product quality, healthiness, service and price, offering them tangible proof of having achieved and willing to maintain and continuously improve the quality of the products marketed;
- Optimize the relationship with suppliers in order to achieve quality, healthiness and safety;
- Actively involve staff in the logistical flows of the product and in aspects related to health and hygiene safety;
- Guarantee the hygiene and food safety of products through prevention systems and control methods of the critical phases for the health of the end consumer thanks to the collaboration of suppliers, transporters and customers themselves.

In order to ensure the achievement of the above principles, the management issues an annual document in which it defines specific and measurable objectives to which it ensures the necessary resources for achieving them.

The management, through periodic reviews, verifies the performance of the management system and the adequacy of this policy.

This policy is disclosed to all the company's staff and to all those who work on behalf of Scatolificio Niccoli with suitable means of communication and made known externally through publication on the company website.
